KiwiPack Supply Chain Overview (Jan 2025 – Jun 2026)

Total Spend	Budget Variance	OTIF %	Closing Stock Value	Dead Stock Value	Forecast Bias %
6.38M	-376K	88.0%	202K	41K	11.5%

Spend by Supplier (colour = OTIF)

Key Findings

1. Supplier risk: Pacific Board Co is our largest supplier ($1.96M) but has the lowest OTIF (68.7%, down from 84% to 60%). Shift paperboard volume to Southern Board NZ (96% OTIF).

2. Price increase: Spend is $376K under budget overall, but Coating is over budget because PE coating prices have risen ~10% since Jul 2025 ($34K PPV). Renegotiate or re-quote.

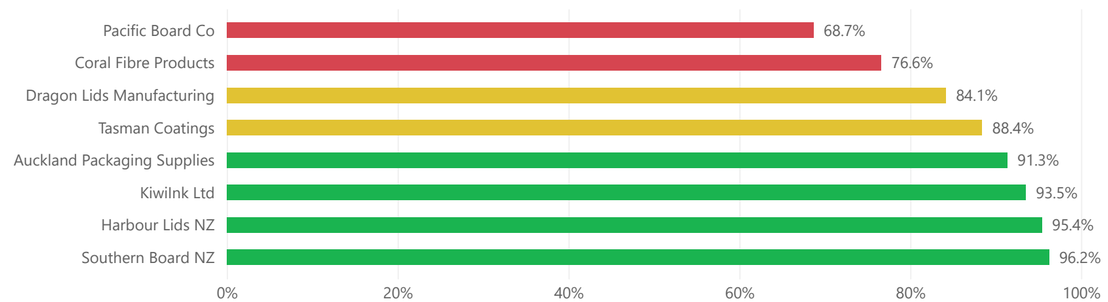

3. Inventory health: $41K (20%) of stock is dead legacy lids, while 4 active items are below safety stock. Forecasts run 11.5% high, so a monthly forecast review would cut excess buying.

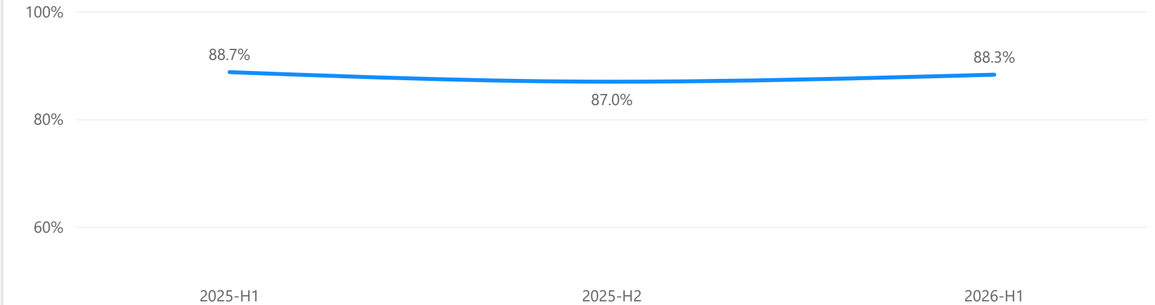

See Supplier Performance, Procurement and Inventory pages for detail.

Supplier Performance

Pacific Board Co, our largest supplier ($1.96M), has the lowest OTIF (68.7%, falling from 84% to 60%), the longest lead time and the highest defect rate. Its 2 overdue POs are putting paperboard stock at risk. Consider shifting volume to Southern Board NZ (96% OTIF).

OTIF %	Avg Lead Time (days)	Defect Rate	Overdue PO Lines
88.0%	14.4	1.15%	3

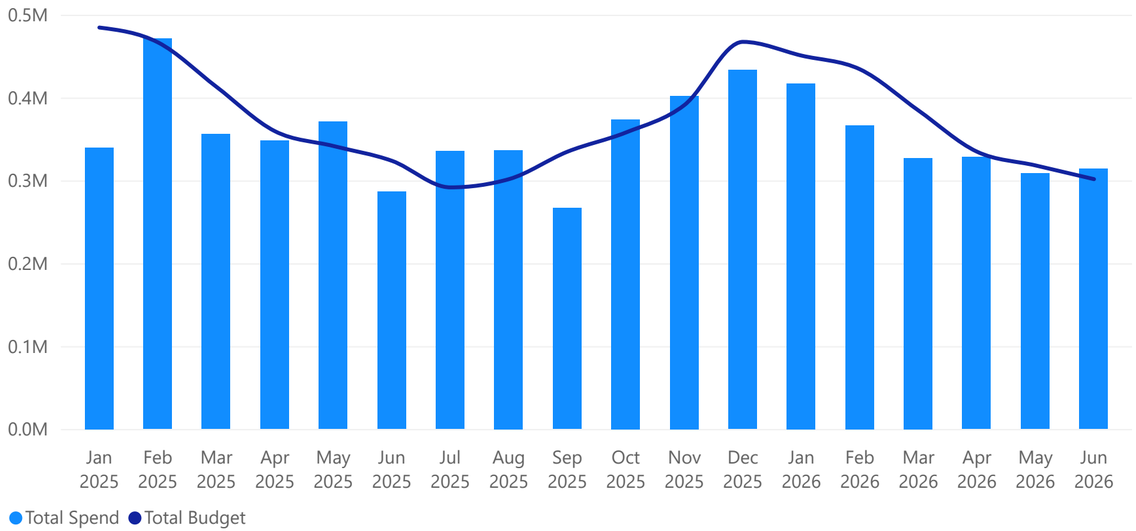

Supplier	Country	Spend	OTIF %	Avg Lead Time (days)	Defect Rate	Overdue PO Lines
Pacific Board Co	China	1,955,752	68.7%	38.2	2.82%	2
Coral Fibre Products	Australia	288,475	76.6%	14.4	0.73%	1
Dragon Lids Manufacturing	China	1,517,930	84.1%	35.3	1.39%	0

Procurement

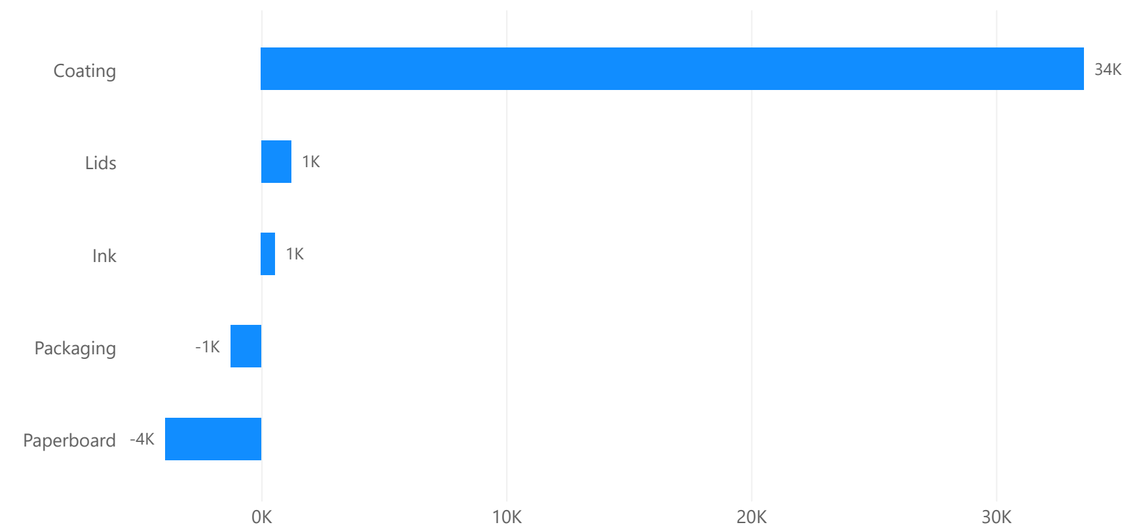

Total spend of $6.38M is $376K (5.6%) under budget, but Coating is the only category over budget (+$12K). Since Jul 2025, PE coating has cost about 10% above standard, adding $34K in price variance. Recommend renegotiating with Tasman Coatings or sourcing alternative quotes, and updating the coating standard cost for the next budget.

Total Spend	Total Budget	Budget Variance	PPV
6.38M	6.76M	-376K	30K

Inventory

Four legacy lids have had no usage since July 2025 and hold $41K of dead stock (20% of inventory); recommend clearing or writing them off. Meanwhile, 4 active items are below safety stock, including 280gsm paperboard supplied by Pacific Board, whose late deliveries add stockout risk. Forecasts run 11.5% above actual consumption, which drives excess buying; recommend a monthly forecast review with sales.
